3 Available-for-sale	4,464
<b>Total</b>	<b>56,152</b>

**Summary of the bank's internal approach to assess the adequacy of its capital to support current and future activities.**

Agricultural Development Bank Ltd. manages risk through an integrated Risk Management Framework (RMF) of the Bank . This RMF is built upon the principles of the Basel Committee on Banking Supervision and follows the directions of Risk Management Guideline issued by Nepal Rastra Bank. The bank follows the Internal Capital Adequacy Assessment Process (ICAAP) and has a framework "Internal Capital Adequacy Assessment Process (ICAAP)" for determining internal capital adequacy requirement in relation to risk profile of Bank. Internal Capital Adequacy Assessment Process (ICAAP) is conducted annually by independent Risk Management Department which is presented to Risk Management Committee and Board. With the approval of the Board, the ICAAP report on annual basis is submitted to Nepal Rastra Bank . The ICAAP report covers bank's attitude towards risk, business and risk strategy, risk appetite, risk assessment and aggregation, stress and scenario testing. The bank has assessed internal capital requirement for consecutive four fiscal year under different three assumed scenarios. The Capital adequacy requirement assessed under those scenario shows adequate level of capital. The assessment is reviewed and the internal capital requirements is calculated, in case,if any changes occur in risk profile.A CEO level "ICAAP Steering Committee" is in place for reviewing ICAAP document and implementation of its recommendations. The assessment is further analyzed in Board level Risk Management Committee (RMC) and forwarded to Board for oversight. The ICAAP Steering Committee also reviews the quarterly Capital Adequacy changes and profile of Bank.
